

Budgetary

- ❖ Updated the 1099's and 1096 for 2016.
- ❖ Widened the monthly budget breakdown fields to fit on the screen better.

Payroll

- ❖ Updated the W2's and W3's for 2016.
- ❖ Fixed an issue causing Monthly Information on the 1094-C screen to be hidden and this now displays properly.
- ❖ Added a validation on data entry when there are no vacation/sick/other categories associated with the pay category used.
- ❖ Workers Comp code will now accept alphanumeric characters.
- ❖ Deductions and Matches will appropriately pull from the default setup when left blank/zero or when added new.
- ❖ On the Federal 941; The "Verify Schedule B Information" screen will now come up before the report parameters. This will allow TRIO to utilize the liability amount for the deposit total and will no longer require user input for the total deposits for the quarter. The amount may still be edited but will automatically default to the same amount as the liability listed on the schedule B screen. If you have any concerns about this please contact the support department directly.
